

OPEN Government

Open resources create a system of checks and balances, a cornerstone of our Constitution. Use the tools below to engage and create better governance.

Transparent.Utah.gov

Transparent.Utah.gov is a website dedicated to the transparency and accountability of government finances. Expenditure and revenue data for the State of Utah is provided beginning with fiscal year 2009.

Open Records

The Open Records Portal is a central site from which a user can submit a records request (GRAMA request) to a governmental entity.

Data.Utah.gov

Data.Utah.gov provides open access to a growing number of publicly available, reusable data sets. This is a resource that will continue to grow. Download the data and start creating your own mashups.

DTS Open Data Report

Utah has unveiled its latest vision for delivering 1,100 state agency services online with a new mobile-centric, data-driven website that officials say will deliver what customers are looking for more accurately than ever before.

- Collaborative codathon with groups and individuals throughout Utah
- First app creation contest ends in August
- Promotes development opportunities using Utah's open data
